

# Manual nets

## Data sheet

---

### MANUAL FISHING NETS

It is a mesh of 17 double crossover chains, used for planting mussel breeding more naturally, disappearing completely after fifteen days. The material used is cultured cotton without pesticides or GM, so it is ideal for growing organic mussels.

## MANUAL UNFOLD NETS

It is a mesh of 17 single crossover chains, used to plant the mussel more naturally, disappearing completely at fifteen days. The material used is cotton grown without pesticides or GM, so it is ideal for growing organic mussels.
